Recycle for charity - THIS SATURDAY!

When we found out that 70% of the toxic waste in our landfills are from Electronic Waste -- we decided to help. MacSuperstore has teamed up with RES Recycling in SLO to provide an easy way for people and businesses to both clear space and recycle their aged electronics.

Chances are, you have stuff collecting dust and even taking up space -- before the holidays arrive -- make some room! In fact, when you recycle your electronics this weekend, the proceeds will go to Big Brothers Big Sisters of SLO! It's a win-win.

Things that qualify: computers, printers, peripherals, monitors, TVs, telephones, batteries, stereos, etc.

Please NO household appliances.

Together, let's see if we can collect 5,000 pounds. In fact, bring anything that qualifies and we'll give you a free "I'm a Mac" t-shirt!

THIS Saturday (the 15th) 10am-4pm at MacSuperstore.

We buy used Macs!

Want to upgrade to a new Mac, but not sure what to do with your existing one? We take trade-in's and can even help you transfer your data to the new computer.

To give you a trade-in value, we first need to see your computer and test a few key things on it (this takes a couple days). Once we give you a value, you can then apply that towards a purchase or we can give you cash for it.

If your computer is not something we feel we can resell, we are happy to help you donate it to a local school that can use it.

more to come...

New website finally here!

With everything going on this year, it seems like we'd never get the new site off the ground (or on the web), but IT'S HERE! Lots more content to add, but at least it doesn't look old anymore. Check out the Products page for current datasheets about all the Apple computers and configurations we offer in the store.

Check it out: <http://www.macsuper.com>
