## You are going to love Leopard. Coming October 26 at 6 PM.

It's official now. Leopard will be available on October 26 at 6 PM... and you are going to love it!

Take a look at the gorgeous screenshot. Leopard's new desktop includes the redesigned 3D Dock with Stacks, a new way to organize files for quick and easy access with just one click. Leopard automatically places web, email and other downloads in a Downloads stack to maintain a clutter-free desktop, and users can instantly fan the contents of this and other Stacks into an elegant arc right from the Dock.

Users can also create their own Stacks for quick access to folders, documents or applications. Leopard's gorgeous new look extends to all applications, with every window on the desktop offering a consistent design theme and active windows outlined by deeper shadows that make them stand out.

## Help local kids - when you buy Leopard

For each copy of Leopard sold during the first week, MacSuperstore will donate \$10 to a local youth-focussed charity.

(you choose SLO Children's Museum, Charles Paddock Zoo, or Big Brothers Big Sisters)

## Waiting to buy a new Mac?

If you've been waiting to buy a Mac -- now is the time!

All new Macs purchased after Friday at 6PM will have Leopard PRE-LOADED. Get the best experience the first time -- New Mac & Leopard!

(If you bought a new Mac since Oct 1st, talk to us, you are entitled to a free copy of Leopard - we'll help you get it!)
